Safety First

Ottawa Lake – Safety Stand

Last year at the Ottawa Lake Quarry we installed a safety stand with ladders that can automatically lower into the trailers of a gravel train. The stand has been a huge success and we recently updated the ladders with sensors at their base so the automated ladder will know when it has reached the bed of the trailer. We now require that all drivers cleaning their trailers on our property at Ottawa Lake use the safety stand. Questions regarding the safety stand can be answered by contacting the Ottawa Lake scale house at (734) 854-2260.

Other Materials

Please never hesitate to contact your Stoneco sales representative when you are looking for a product that you do not see on our price sheet. We have a full time quality control department and we are familiar with all Michigan, Ohio, and Indiana DOT materials, we are Army Corp pre-approved at several locations. Our sales and QC Staff can typically come up with a solution to any of your material needs.

Holiday Hours

The summer holidays are now upon us as of now we are scheduled to be closed Monday July 5th (in observance of July 4th) and Monday September 6th for Labor Day. Please contact us for any special loading arrangements you may require.

Newsletter Update

You may have missed our newsletter over the past few months. In fact, we hope you did as that means you are reading it. Effective with this newsletter we are switching the publication from a monthly based publication to a quarterly based publication. With 12 editions per year, we discovered some of the content was becoming repetitious. We have had many compliments on the newsletter throughout its existence and are looking for some feedback. Do you find it useful? What can we do better? Please contact any of our sales reps and let us know.
